

Hi UPEI.

My name's Luke Poirier and I'm a 3rd year biology student from Cascumpec, PEI. I'm bilingual, and I love poutine! I'm also running for the position of Executive Vice President.

As Executive VP, I hope to build upon what council has already done for the students at UPEI. I understand this position is incredibly important as it acts as the liason between CASA as well as UPEI Senate. As Executive VP, I would strive for open communication between students and myself so that they understand how they will be affected by things like tuition hikes. I've always been interested in parliament and have actually been involved as a page so I'm comfortable speaking with provincial and federal leaders for the sake of UPEI students.

I also think Education Week should be a much more prominent event at the school and I know I could organize something great. On March 23rd and 24th, vote Luke Poirier for Executive Vice President.
