

Since the last council meeting, things in residence have been moving quite smoothly. On October 15th, I had a meeting with Sarah Donald, the Residence Life Coordinator. It was just a short meeting so I could introduce myself, and go over a few topics. There has also been activities around residence such as the fall carnival and the residence drive in. The only problem I have seen in residence is the laundry machines. Currently the dryers are broken, so you have to go to the RLA's so they can manually turn them on. Other than that everything has been pretty great.
