

Hello council I want to welcome you back to campus and hope you have an amazing year! Since our last council meeting this is what I have been up to!

Panther Patrol

Starting with the Panther Patrol I'm happy to announce we have purchased the Van on December 31st, unfortunately it took more time than I was hoping for but we wanted to do it right and make sure everything was perfect. Moving forward we are currently getting everything ready for the services, working with our sponsors and we are hoping to start sometime in February. We have a potential logo that I will share with you once it is completed, As we move forward I will keep you all posted on the service and what's going on.

CASA

I had a CASA board meeting on Wed 5th to review how our week in Ottawa and overall everything went very well and we have had some great support from some MP's and Senators across the country like Senator Percy Downe who wrote to the Minister of Finance for us!

Elections

Elections will begin tomorrow for our VPSL, VPAX, and President! I have been working with the VPSL and the our videographer for some election videos and posters that will be released tomorrow showing students what we do at the Student Union and when they need to apply for each position! We are hoping to get lot of interest from the student body so I want to encourage you all to please share and inform our students to apply.
